Jeffrey, <=span>

how are you doing? Are you in NYC? I recent=y went to Tokyo for the first time to speak at a conference, it's q=ite an interesting place - if you've never been you should go, I th=nk you'll like it

Since we didn't manage to catch up in person last time and I think you most likely w=n't be in NYC when I'm there next since it will be the midd=e of August, I figured I'd send you the deck of what I'm wo=king on these days.

What do you think of it? Can you think=of any company you know that might be interested in doing a pilot with us?<=span>

Do let me know if you happen to be in NYC i= August.

Thanks,
V
