2017 Whitehead Symposium

<=iv style="margin-top: 7.5pt;">

Dear Friends,

Earlier this month, Whitehead Institute ho=ted the 2017 Whitehead Symposium in New York City. This year's program,&nbs=;Harnessing the Untapped Power of Plants for Human Health, allowed=two leaders in plant biology, Whitehead MembersMary Gehring <<http://whiteheadp=lse.cmail19.com/t/r-l-yudjayd-krxlikyhi-t/>> and Jing-Ke Weng <<http://whiteheadpul=e.cmail19.com/t/r-l-yudjayd-krxlikyhi-i/>> , to provide you with a window into their resea=ch and to describe how plants are a major gateway to the future of biomedic=ne and biotechnology. Jing-Ke's graduate student, Olesya Levsh, who outline= her journey to Whitehead, personifies a commitment that is at the very hea=t of our mission: guiding and nurturing the next generation of scientists.<=:p>

Whitehead Insitute Director Dav=d Page <<http://whiteheadpulse.cmail1=.com/t/r-l-yudjayd-krxlikyhi-d/>> outlined our vision for the future and how we are la=er-focused on ensuring that Whitehead Institute remains a pioneering force i= biomedical research.

Further, I think everyone enjoyed hearing Foundin= Member Harvey Lodish's <<http://whiteheadpulse.cmail19.com/t/r-l-yudjayd-krx=iikyhi-u/>> =nbsp;remembrances of Whitehead, which included an important look at funding=trends and needs.

We invite you to share in the excitement of advancing=the important ongoing discoveries that take place here every day. Your supp=rt and advocacy are critical to realizing our bold research agenda, and I e=courage you to consider getting involved by making a gift <<http://whitehea=pulse.cmail19.com/t/r-l-yudjayd-krxlikyhi-o/>> .
