i never suggested this, she asked what else i did and shared how much she liked the books and that we should try and do something, which i suggested could be wonderful, that's it.

she doesn't seem to have anything going on with her foundation at the moment and on the basis of how my visit was set up, i think is just trying to understand how she can be helpful.

granted , there's an extraordinary alignment of interest, the one million children is a massive pool to tap into
