**Subject:** RE: G550 5091

Chuck,

Please revise proposal:

We will have one (1) each TC6000 touch=creen in each of the four (4) divan arm rests.

The two (2) each “center positio=s” on the two divans (4 total) will be the significantly lower cost =emote headset jacks as you depicted below.

Please provide pricing for one (1) eac= dual USB outlets like we did on G550 sn 5015 (Panda) so that I can find o=t “if” and “how many” they may want.

Best Regards,

Eric

Eric,

We did 4 for each Diva= for a total of 14 TC-6000's shown below. Dis-regard center divan seat 12 TC which is labeled TC16. That's the way Rockwell labeled it in=their software. We can do 16 TC's on 5091, one for every seat, or just install 1 TC at each FWD/AFT divan armrest that controls both reading lights and personal audio for both seats and do remote audio jacks for the center 2 seats. Remote jack is pictured also below. That=picture was from Prince's personal jet.

Remote Headset Jack

Chuck,

I am flying to California this weekend and will obtain copies of the electrical prints I know you will require.

Crew rest and touch screen just like s= 5015. One ea. TC-6000 at each cabin seat. How many TC-6000's =id we have for each divan on sn 5015? (3? Of 4?).<=p>

Best Regards,

Eric

Eric=/p>

Do you have the Gulfstream 416/569/502 drawings that you can forward to help with Venue quoting. Also do you have an idea of how many TC-6000's you want and if the Cr-w rest will get a touch screen like 5015. Thanks!
