Sir, I have attached some information that may be helpful, perhaps you can print and carry that on the aircraft. &n=sp;

I will follow up with you after I make contact with the ports you mentioned.

I apologize that you are having to take time to deal with this and I will do what I can to resolve it as soon as possible. =

This email is for the Private Aviation System Administrator at CBP. It is not for complaints but for support and it may be a good place to send a general question and receive a written response.&n=sp; privateaircraftsupport@cbp.dhs.gov
