Jeffrey

When I sent the first message, all is good „maintenance moved 7500 of the 10,00bs of fuel,, we have in the right wing.,

All appeared normal, once 10000 lbs was reached fuel started to drip from the main hose connection point located on right wing,

Very easy repair except the Miami vendors do Not open until 8am tomorrow so departure will need to be delayed ,,

Maintenace will call other vendors tonight,

I will be at Boeing at 6am to give update

Thx  
Larry
