Subject: Barge

Greetings all subbase dry dock wants us to temove the barge from their facil=ty, i dont think its apprpriate the barge has a 10 inch gash that according=to Grne is not taking water.I dove the barge and saw the gash, they cant se= it because water is like cholate milk right now. I beg uso not to make me r=de in this craft as iam no longer comfortable in it after thursday near col=ision with a ship due to loss of steering and power, i got extremelly nervo=s. I have no problem assisting in the tying of it in red hook but do not ri=e in it from town with a gash on bottom.

Respectfully
Carlos
