Subject: Re: landings GIV

Ok on touch and Go's, except we'll do full stops if you want islip, runways at islip are 5000ft and 7000ft long. I'd prefer Stewart NY, 11,500ft runways which is 62miles away, we have to fly 10,000 or above to get WiFi operational test complete, I thought we could head North to gain Altitude for checks then complete landings in Stewart Newburgh NY?

Billy will meet us in islip completing cockpit checks tomorrow, Do you want Dave to Fly first while your on board? Eric can accompany you during test flight if you like?

Brakes on GIV are Brake-by-Wire, much more sensitive than GII (Hydro-Mechanical) brakes, could make for uncomfortable feeling as a passenger, especially with Dave at the controls?

Thx
Larry
