Subject: update

Jeffrey, Boeing co=pletion is based on Engines returning from Miami,.
Engine shop should be ready to deliver the engines first week of May, =y guess May 15th or about that date for Boeing test flight,.

sorry, missed your call, I was on the phone with Miami Engine shop,./> first engine is in test cell for pre disassemble runs,. bore scope ind=cates some delamination of Compressor area side walls, light corrosion,, w=ich we expected in tail pipe area, to early to tell price impact, but thes= are normal for engine corrosion inspection,.

-Gulfstream PBI is schedule for baggage door seal when we arrive =hursday, part is in hand already and will start as soon as we Land. I will=have them inspect Fwd door seal for inflation issues, etc during this=visit,.

thx
Larry
