**Cc:** Noam Chomsky  
**Subject:** Estate planning

From proposals I have seen, taxes of N=am's estate are being planned to be taken from whatever portion of the=estate Noam leaves for me. Hence the projections that I will have a =uge and accruing debt in some years, probably with the government. I would=like to be understood by them that honor and honesty are sacred values to =e and I won't accept any proposals that are not morally correct. =br>

I am not asking for anything, even less for s=mething that the law doesn't allow. But on the other hand, I demand th=t my rights be respected.

Valeria
