Subject: MATH SAVANT / videos

Hello Deepak,

I met you briefly at the El Cerrito HOME event. In case you didn't receive my videos (Math Savant) since you were in 'silence'. You mentioned neuroscientists could be interested.

In the videos below, you will see him do ratios of 48's up to 10,000, both plus and minus for any number. Basically, he is able to tell you the difference between his father's age (53 at the time) and his age (5 at the time) at any number range, mostly below 10,000. It was discovered last September 2016. His father lives in England so they do this through Skype. He can branch off to other people's ages if he knows them, etc.

Thanks for your attention - Carolyn
