Jeffrey,

The 407 is in Fort Lauderdale at Edwards getting floats installed and having engine oil changed,. Weather over the bahamas was bad over the weekend any how, I plan to depart as early as tuesday to st thomas and arrive Wednesday, if weather permits,. Ps; I had the engine chip light illuminate on the last day of training last week, edwards is flushing oil and changing the oil at this time, I go into it much via email, you get 3 chip lights then either the engine or normally the accessory gear box is at fault, neither one is good.

I need to fly the 407 today for 3 hours and see if chip light come on again, and inspect the magnetic chip plugs to see if the gears are making metal still.

I will know more today , I'm on my way to edwards now to do ground runs on engine.

Thx,
Larry
