No, based on the fact you have never required one before, your wate= was fine  
You hav= to get the RO post treatment calibrated  
Sorry misunderstanding I was under the impress=on that you requested a Water Softener

Jeffrey

Patrick proposes t=at once RO has been serviced this week another sample be taken and  
sent to l=b for analysis

Regarding the Proposed Water Softener

1. The Ranch is replacing proposed fleck units with the below model  
Kinteco CP216 Duplex Softener

Control heads on the Fleck model were prone to failure

2. Someone will need to check with DPNR regarding discharge of Brine, could be a permitting issue

Or install some where they won't see system during site visits

3 Danny will need to install variable speed drives on the main distribution pumps otherwise the continued water hammering that is occurring will dramatically shorten Softener controls
