Subject: Pilot candidate

Jeffrey,

I wanted to give my feedback on Pilot Doug who flew with us to PBI.

Doug is a great pilot, didn't miss any radio calls, knows the systems, I was testing him during our flight to PBI, reason you saw the emergency book on his lap, Doug's big turn off for me, he informed me his previous boss asked him to pick up his family at the airport, Doug told him, he's a pilot not a limo driver.

Doug's feels more at home in a department with 5 or more pilots covering one aircraft, with several full time mechanics,.

I will try to use a new candidate next departure from Teterboro if you approve? we have 4 more on the list from Jet Professionals.

thx,
Larry
