Subject: Internet and phone updates

Good day all

=errence fixed the wifi so Internet at the compound is back online.

Terrence associates did not have a fiber extender str=ng enough to hit the island from stt.

But we=were able to get the original one to light back up I am on my way back to L=j to try to get the extenders communicating with one another if possible.&n=sp;

I will spec for new extenders, it is no guaran=ee that the one on stt will communicate with Lsj but if it does we don't kn=w when it will fail again.

Regards
