Subject: Wood samples

Jeffrey

Heather from SAV Interior design will Fedex on Wednesday other w=od samples for your consideration,, her interior shop received the Raw wood=Friday and is preparing Samples from the exact Logs that are available.&nbs=; Thx Larry

Dear Larry,

In regards to Mr. Epstein's interest in=re-veneering his G550 [REDACTED] I have obtained samples of Walnut Burl, Dark E=calyptus and Pearwood, these samples will be ready to ship on Wednesday.&nb=p; I have conducted research on the Pearwood as this is not a veneer w= have used in any of our Gulfstream Aircraft as it is a specie that has bee= known to have bruise marks in the grain which causes issues during finish=g. Should you choose the Pearwood we would be required to samples of t=is veneer through lifecycle testing to determine its wear ability, if it do=s not pass a re-selection would be requested. This testing ranges from 30 t= 60 days.
