It appears from email chain t=at we need 60 tiles to complete current project I am unsure=of your thoughts on keeping additional inventory for future projects <=iv>

Stone from the DR:
400 =cs 16 X 16 X 1.5 coping - EDA to DR port, January 2015

=div>400 X 12.50 = \$5,000 + 250 = \$5,250.00
Shipping 20=; container = 3,000
Total Cost = 8,250
(I need to=inquire how many pieces can fit in a 20 container)

=u>Stone from Miami:

400 pcs 16 X 16 X 1.5 coping - EDA to=FL port, 12/22 or 12/23

400 X 14.50 = \$5,800 =/div>
Shipping 250 x 7 = 1750 + 250 trucking = 2,000
Total Cost = \$7,800.00

=/blockquote>

Timin= = Will ship Dec 22/23 from Miami to STT

=div>

=Please advise Miami or DR for tile and quantity desired
Thank you

Greetings Rich,

Tropical only=ships Full Container Loads from DR to STT:

20' con=ainer = \$3,040.00

Per Luis, the 400 tiles fill about 7 pallets - estimates \$250 per pallet in shipping costs from FL to
STT:</=iv>

7 pallets @ \$250/pallet = \$1,750

Miami and DR please

What does 400 pieces mean. We should seek jee input and also attempt to get Miami pricing for 13.5. I am happy to make that call but need property quantity from jee. How much needed to complete Job. How much extra?

Good Evening Mrs. Wallace,

The options are the following:

From DR 400 EA 16 x 16 x 1=1/2 priced at \$12.50 per Piece. Possible ETA January 2015 in Port.

From Miami From DR 400 EA 16 x 16 x 1 1/2 priced at \$14.50 per Piece ETA Miami December 22 or 23 to Tropical's warehouse in Medley.

You have to add \$250 for delivery from warehouse or factory to shipping facilities.

I need to know your decision as soon as possible. I did mentioned that my productions slots in the factory for 2014 are occupied. So the only chance to get this in 2014, is use my associates slot to put in your order.

Best,<=r clear="all">
