Mr. Epstein Lynn told me you discussed with her installing new flat screen security panels and also giving the staff control of all the security cameras and the outside pan tilt zoom like i have in the security office , for the kitchen and basement staff apartment. To get proper pricing for this installation i wanted to make sure this is accurate. To install this in the two locations additional wiring will need to be pulled and additional equipment installed from the Sensomatic digital recorder in the security room to the kitchen and basement staff apartment. The Sensomatic Security system is not compatible with apple , we were told by lawyers that no I phone app is available for security reasons , I will have James look into this
