Hi Lesley,

The Apple TV & iPad =ro aren't available to preorder yet. The watch I need more info =or (see below). Bella needs to preorder the phone.

1. The new Apple TV will be =vailable in late October. No announced date for preorders, yet.

Important to =ote on the Apple TV is that there is no longer a separate audio output =E2?? everything goes through the HDMI cable. If the projector or tv =hat it's plugged into doesn't support audio-over-HDMI, =t won't work.

I'm not sure if any of the =urrent setups rely on the optical audio cable going to a separate =eceiver currently, but they will need to be reconfigured to work with =he new model.

2. The iPad Pros will be available in =ovember. No date announced for preorders, yet.

3. On the watch.... there are so =any options here designed to suit personal preferences, so I need a =ittle more information...

Do we know who the watch is for / which model and band he wants? Is this a gift? Does he just want one to play around with?
