Subject: Palm Beach carpet

[REDACTED] has 2 carpet samples. One from Marc Sacco and one from ABC. Janusz and rich think the carpet came from Sacco and sarah thought maybe ABC= Both differ from ours slightly in color. Marc Sacco thinks our current one in the house is his. He sent me the follow=ng after seeing a photo of his sample lying on our carpet 'This is a natural Berber type yarn. Its not dyed to match and the color ch=nges every time it is made. What is possible is if you can cut a piece from t=e existing, we can check for the closest dye lot and use that for productio= '

Let me know how I should proceed

And also if you have a moment to have a quick look at the rooms to check if y=u agree that they should all be done.
