Subject: Nautica

Jeffrey,

I want to make the Nautica perfect before shipping,.since we are in FLL with=access to the best Maintenance., We installed the New AC unit which works great, a lot of cold air with good v=lume of air movement,.

I'm struggling the with Generator,. At some point there was water intrusion w=en Ed owned the boat,. There is a water line on the Windings that produce t=e 220VAC,,.. also, the generator is surging when Ethanol fuel is used,,. ca=sing Voltage to spike from 220VAC to 280VAC,., we blew the computer board o= the New AC unit,. I was able to exchange via warrenty,.

The current Generator is carbureted,. And has a Bearing noise as well I'm co=cerned about.

Option 1,

Overhaul and rewind the coil for voltage and install new carburetor,.

Estimate $1800 to $2600.

Option 2

New 2017 Generator with fuel injection system and upgraded fuel pumps,.

List price $9800,. Boat show price $9100, Runs on all unLeaded fuel,. Even ethanol fuel additive,.

Our best price $8900 with Free installation with trade in of our old Generat=r.,

Pls advise if you want repair, or New Gen?

Thx

Larry
