Hi Tyler,

*
Homepage:=the flashing titles over the photo should be: 'AI Projects', '=I Press', and 'AI Blog' and they should link to those pages ac=ordingly. Right now they link to non-AI press releases.
*
Homepage: use the attached AI photo vs. the photo of NY City.=/div>
*
Navigation: at the bottom of the site, should have all =f the menus, not just 'About' and 'AI Projects'
*
'AI Projects' should have its own menu at the to= right of the page after 'About'. Right now its a sub menu in the =bout.
*
Jeffrey's full name should be in the url=of the 'About' page.
*
the Twitter link does not go to J=ffrey's twitter account page: @Jeffrey_Epstein
the RSS link at the bottom of the page should link to the Blog page.=/div>
*
About page: change Jeffrey's photo to the one attached.</=iv>
*
Blog page: should have the updated RSS feed-- right now i= only shows a post from May.
*
Contact page: the address =hould say: Jeffrey Epstein VI Foundation. The VI was left out. were all the meta tags etc put in?

thanks,
