Jeffery

Midnight weather at Newark is 900 broken with 2 mile visibility, but improvi=g.
By 4am the weather is forecast to be 9000 broken with viability greater than=6 miles.,
Our arrival time should work fine,. Front passes by 2am.,
Weather has been terrible all day in NY., Current Newark Wx is 600 broken wi=h 4 mile vis.,

Saturday and Sunday weather should be 72 degrees , sunshine,.

Thx
Larry
