Started with the effect on the auto. I don't care that much about that deviation any more, and expected to be marketing a different form of machines. But this speaks to energy in all its forms, and the overall economy.

Scares me big considering I'm financing something with zero collateral value. Scares me bigger for my Manhattan garages and real estate overall.

Good morning Jorge. I have seen this before and it is quite interesting. It's more than that it's a call to  
awake!

Real curious to see what you think.
