thanks

I suspect the sale document or notification thereof was not communicated to the Apollo tax preparer. We will get this done so that you do not get a 2013 K-1.

We did receive a K-1 after the FTC 2012 tax return was filed. They historically have sent us our K-1 every year after or on 9/15. We reported the sale and wrote off the balance to long-term capital gain.

Attached is the K-1 which shows that they did not zero out the balance.

Please call me with any questions.

Thank you.
