Jeffrey,

This study allow us to work more in detail. With it I can see with your comments how I have to rethink some space...

Regarding the height of the theater, please find attached a cross section. The theater can be higher easily.

Gym can be easily at a different place.

Same for the dimension of the pool...

I let you make all your comments and we can talk about the modifications you would like for this project.

thanks . some first comments . how high is the theatre, reminder it is only for me , so I think seeing the gym as the main floor upon arrival needs to be thought. it looks a bit like a health club. please never two toilets in one room. no need . plenty of space. office looks great. . pools look thin for landscape. and scale. . i need to see placement . so that it doesn't look like a house without regard to the rest of the landscape in that quadrant. .
