Do you like this wardrobe, dresser and side tables for [REDACTED] =edroom? It comes in the charcoal stain as well as the lighter shell =tain. I think the charcoal looks great with the wood floors. I know = [REDACTED] said she can use more closet space, which the wardrobe has a =anging bar as well as the drawer space. All these items in Charcoal =tain are in stock and can be delivered next week on the 22nd if you =like them. The dresser and wardrobe would both fit on the wall opposite =he bed.

The lighter stain, "shell" would be available =n the warehouse by Jan 22nd, then could be scheduled for delivery after =hat =ate.

Thoughts?
