[REDACTED] went to Room and Board herself today and showed me the same charcoal w=rdrobe that she saw in the showroom :)) She also picked out samples fo= the roller shades. Room and board did a great job with my shades. They ha=e decent prices and fast delivery.

Do you like this wardrobe, dresser=and side tables for [REDACTED] bedroom? It comes in the charcoal stain as well a= the lighter shell stain. I think the charcoal looks great with the wood f=oors. I know [REDACTED] said she can use more closet space, which the wardrobe h=s a hanging bar as well as the drawer space. All these items in Charcoal s=ain are in stock and can be delivered next week on the 22nd if you like th=m. The dresser and wardrobe would both fit on the wall opposite the bed.=A0

The lighter stain, "shell" would be available in the warehou=e by Jan 22nd, then could be scheduled for delivery after that date.

Thoughts?
