Hi Giuseppi,  
I've cc'd my benefactor, Jeffrey Epstein. He can make arrangements on the transfer of funds for the Conference.

Jeffrey is also really well connected and can bring significant relationships to make this an amazing event.

Hi Giuseppi,  
I'm still in Hong Kong. Any chance of coming down to Hong Kong?

My benefactor approved 25K. Am working out the contact for the transfer. I still owe you a writeup on the agenda.

Basically:

1) Focus on creativity and innovation. Would like to get people in this space to talk about it, as well as practices. This is good to attract people in business and corporate for future sponsorship. For example, this group is quite successful: <https://neuroleadership.com/>. There are some artists and hyper creatives we can also get to talk about the experience and explore study methodologies. Would be great if we could get ex Jung - <http://www.apa.org/research/action/speaking-of-psychology/neuroscience-creativity.aspx>

2) Studying people that have special abilities (synesthesia, empaths, etc.). I know a few and work with people like this: <http://www.paulselig.com/>. This is more parapsychology, but also relates to intuition and insight.  
Different forms of knowing.

Any news for the conference in Cuba? I am just waiting for your final communication to start the project!

Best wishes,  
Giuseppe

Hi Giuseppe,  
Happy Chinese New Year. Give me a few days. Still celebrating with family. I'll probably do another one of these: [www.yhwtulum.com](http://www.yhwtulum.com) <<http://www.yhwtulum.com/>> before or after the event. Will also do a business and consciousness event in Cuba during that time. I also have another potential sponsor I'm talking to.

Dear Gino,

have you seen the preliminary topics in my first draft of the program? What else do you want to add or what to change? Do you have in mind any particular speaker to invite? Some specific Symposium to propose?

Wonderful if we will add our workshops to the program!

As soon as you will confirm all, I will create a congress website and will start to spread a first announcement and work at practical operations. I will need your close counseling for this.

Regarding the administrative issues, I think it would be better if the sponsor could transfer all the amount to the Organizational Secretariat MIND, that will then take care, under my careful supervision, of all the organizational activities and costs.

I hope to receive your news soon.

Thanks for all,

Giuseppe

Dear Gino,

I enclose a brief advanced draft of the project. Please feel free to make remarks, suggestions and changes, all welcome. It is just a preliminary worksheet. You can see I left some reference to "mental disorders/psychiatry/clinical neuroscience"/ecc., since I think it can enlarge the number of participants. But check the preliminary list of topics and change it as you think better.

When we will have a shared draft, I will submit it as advanced to Prof. Aldè-Sosa and then we can start with selection of speakers, announcement, sponsor recruitment, diffusion, organizative actions, etc.

Mind and Solymed can take care of every organizative and administrative issues.

I am sure we are working at something great!

Looking to hearing from you,

many thanks,

Giuseppe

I have the 20K you asked for. Once we have a plan, we can explore other sources. They are introducing Alex Castro to me (Fidel's son).

Right now I am at this which we organized and will also do something around the time of our conference in Nov: <http://www.yhwfest.com>.
