I'm in Hong Kong. I'm cool with Stu. Just not happy that he blamed me for his shit (been going on for a while).

Wasn't going to introduce you to anyone with this mail, but looking to build an Ambisonics setup (see the picture).  
The wooden stands each hold 4 speakers - 360 audio) at your place no experience.

FYI. We are doing work on ambisonics. See the below picture. It is basically full 360 audio also at different heights. Can build you a setup for your place if you are interested.
