Ciao Mario !

How are you ? I was thinking of doing a= internship in photography for a couple of months since I would like to im=rove and master my skills in this field. I believe the only effective way =or me to learn and attain this goal is to be thought from the best ! I don=#39;t know if you were serious or not when you once told me at Luis F=lipe's house that I could intern for you... I would really appreciate =f that could be possible. Looking forward to hearing from you...

Big kiss,
