Hi Marc, before you leave today, can you please confirm the following?

- \* APU Borescope status

- \* Overall % of records review status
- \* Best estimated date of completion of all physical review items
- \* Best estimated date of issuance of ARCS report

It's going to seem like an eternity to wait to hear from you again until Thursday afternoon, which would most likely be the next time you will have anything worth reporting assuming that no one can get in on Wednesday.

Thanks!
