I'll request price for interior at Gulfstream:

Gulfstream informs delay if we select Custom color due to lead time of paint. I'm having a color sample board of colors that Gulfstream can order in time for May 24th time slot, if maybe there is an acceptable color in that chart. It will be Fedex to you direct in Ave Foch apt address.

Here is what Gulfstream just sent:

<div id="AppleMailSignature">

Good afternoon Larry –

I've asked our designer, Heather (copied), to provide you with our Axalta paint book. These standard colors are our best bet to support the 5/24 input date if that is what you choose to go with. Any of the PPG or custom colors will require a longer lead time and we would need to consider another paint slot. Also, we'll need to put together renderings and paint panels for approval signature after you've selected the color(s). If you wouldn't mind, please provide a good shipping address for you so that Heather can send the book for your review. Thanks!

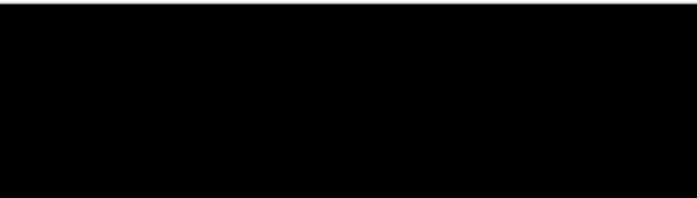

Best Regards,
