I'm here; but the timing is dependent on Apple.

He uses over 900 GB of data, so it HAS to be a 1TB MacBook Pro, which is not a configuration stocked in the retail stores.

I've saved the configuration in this cart for you:

[http://www.apple.com/shop/bag/saved\\_bag/2464652621#](http://www.apple.com/shop/bag/saved_bag/2464652621#)  
<[http://www.apple.com/shop/bag/saved\\_bag/2464652621](http://www.apple.com/shop/bag/saved_bag/2464652621)>

It's listed as "in stock", that probably means that they have it in the warehouse in PA and if you ordered today with expedited shipping, would ship tomorrow (hopefully) & arrive on Monday. I can set it up Monday afternoon and have it ready for his arrival on Tuesday.

That's best case scenario. If they decide to ship from China, it'll be a week (worst case scenario).

The other option would be to call Tekserve -- who are closed right now obviously -- and see if they have the configuration in stock for pickup.

My recommendation is that you place the order with Apple right away, and if we don't get a ship notification by tomorrow afternoon, call Tekserve @ [REDACTED] and see if they have it for pickup.

This is the configuration (bold items are what needs to be read to them):

15-inch MacBook Pro with Retina display  
2.8GHz Quad-core Intel Core i7, Turbo Boost up to 4.0GHz  
16GB 1600MHz DDR3L SDRAM</>  
1TB PCIe-based Flash Storage  
Intel Iris Pro Graphics + AMD Radeon R9 M370X with 2GB GDDR5 memory  
Force Touch trackpad  
AppleCare Protection Plan for MacBook Pro - Auto-enroll</>

Happy \*.

JEE would like you to buy a new laptop for him (I assume same model) and remake from his last backup  
a 71st street

Please let me know what I need to do and your timing (not sure if you are in town)

Thank you

Rich
