Attached is the first draft prepared by Tom; password to follow. Please use bookmark tool to identify section breaks.

It has not been reviewed by the family office and at first review, does not look entirely clear to me. Tom's approach is to trace numbers from the BRH K-1 to a BFP pro forma K-1/ return which was deliberately never filed and then to the various entities that own BFP interests to show that these entities allocable share of BRH tax items were included on LDB's 1040. Such an approach may not be the clearest way to demonstrate that the BRH numbers are properly captured on the 1040 and we are looking at alternate methods of reconciling the BRH K-1 to LDB's 1040.
