Subject: quantum article attached.

Hi Tyler,

attached is my article on quantum computing and sulfur bacteria. I'm sending it to Seth Lloyd to review--and to get his input on how Jeffrey's name can be used. I think it makes more sense with this piece to have Jeffrey as the editor, incorporating his name into the publication's url. vs. trying to force his name into the title--which everyone will reject.

Will send you the AI Ethiopia article asap-- this will be easy to have Jeffrey's name in the title-- and Ben Goertzel said that he would be glad to accommodate that. I have his notes and ask him to review that article as well.

things to do additionally:

- *
- drop down menus on the websites--which cover google's first page. will discuss with you today.
- *
- google ad words-- we talked starting this.

until soon, thanks,
