Subject: Re: Update on landscape

Hi jeffrey,

Sorry to get back to you so late, When you come off the boat =ou will discover a coconut palm grove like in every low part of the =land then my idea was to discover that big pool I draw, (which could =e filled with ocean water to avoid desalinize) not exactly where the =ennis court is located today, but much more on the left into the hill =his pool shall be surrounded by native and tropical ornamental plants =ith grass. From this low site you'll get access to the house =rough stairs. You right house come first that's why this part =as not so precise in the study as I will need house plan. However, =ollowing your idea about enjoying the island entirely, I have then =roposed you « landscape constructions » which could be =ttractive places to go and enjoy (when I'll fix or modify them =ccording to the code) and from where different gardens style will be =evelop (arboretum, blooming forest, palm grove, fragrant, art garden). =e havent got the time to speak about it last time, but what do you =hink of the amphitheatre? this will truly be protected from wind where =ruits and many different kind of trees shall be planted. Being in the =iddle of that circus could also be a very nice area to work whether the =rchitect could integrate an office in there. Please I would like =hether you can give me a quick feed back on this. Also, I attached some =ictures about trees I'm purchasing to have on the island some =f them are from Portugal others Argentina . I already asked Nurseries =hat will be the procedure to get theirs trees into the US they are =orking on it! as I do.

Regards,

Kevin.

PS; Thank you for your first =ayment.

Hi jeffrey

Would you like to go over the study tomorrow ? Tell me whether you are =available to make a call.

Best regards

Kevin
