Subject: Re: Omar: Stone nook

Good night Bossman,

<=div>

I measured 16ft long x 3ft high at 48sq ft.: \$20 x 48sq ft. ==\$960

Omar is saying that it's suppose to be 96sq f=. because he have to make both sides smooth and not rough \$1,920.00?&n=sp;

<=div>

Please advise,

Ann R.

Good night Bossman,

I j=st spoke to Omar and he's saying the additional stone work on the Park=trail nook adds up to 112 sq ft. \$2,240.00.

I'll double check h=s measurements in the morning because that doesn't sound right to me. :-/=</=iv>

All projects Omar worked on:

Park trail sitting area:=\$20 x 114sq ft.: \$2,280.00

Helipad wall extension: \$20 x 128sq ft.: \$2,5=0.00

Main Compound wall: \$20 x 200sq ft.: \$4,000.00

Pleas= advise,

Ann R.
