Hello L=rry,

I'm not c=mpletely familiar with the aircraft, do you know which Rockwell Collins sys=em is on board? ACMS or Venue? I will also check internally for a past proj=ct.

There is a=Remote App from Rockwell Collins, you can actually download it directly fro= the Apple App Store, search Rockwell Collins Cabin Remote. </=iv>

This will get you some idea o= its capability. But as for using the App this will require some leve= of software development with the complexity depending on what system is cu=rently installed and what features are desired.

I'll be back in touch early next week; enjo= the Easter weekend.

Thank you,
