If it helps, I will redesign the system. This invol=es a complete redesign of the switchgear and the addition of step up trans=ormers. With all of that said, you will be able to to the design as reques=ed and use the generators to back up both islands. Additionally, I believe=you will save some money.

I will, however, send y=u an addendum for this design because it is quite detailed and a significa=t amount of additional work.
