Hi Richard,

As ever, good talking to =ou on the phone a moment ago. I have summarised our conversation =elow:

Rolls-Royce are willing to offer an extra \$20,000 support for =he Ghost so long as at least \$10,000 is financed through Rolls-Royce =nancial services. The interest rate will be 1.99% (tier 1 credit) and =he loan can be settled after 3 payments. Settling the loan is a very =imple procedure and I will help do this for you.

Ghost EWB - \$340,000
Maybach - \$140,000

Net balance \$200,000 + tax and =egistration.

Please let me know your thoughts,

Rupert

Hi Richard,

Good talking to you yesterday afternoon.

I have looked at the =013 car in Miami you mentioned. I really don't think we are comparing =pples with apples but that said I wanted to justify our car. The =specification's of Rolls-Royce are normally so unique it is difficult to =ompare two cars as they are rarely the same.

1. Ghost was completely re-engineered =or the 15 model as the Series II. The main differences are visual and =nder the body:

2. Rear suspension and axle system was totally re-engineered =o be more comfortable, quieter and stable.

3. Navigation and info-tainment system =as upgraded from a rather clunky system to a totally up-to-date system =hich is so easy and intuitive to use.

4. Gearbox was upgraded to include =hift patterns linked to the GPS, meaning the car knows the road type =nd whats approaching to make the driving experience as smooth as =ossible.

The body of the car is sleeker and has a more rounded =rofile. There were many other minor changes under the car's skin too =hich have made the Ghost series II a more complete car, which in turn =as make the values of Series I cars drop.

The very best I can get our car to is =360,000 and top the warranty up to 10/31/2019. The warranty alone is =orth thousand's. I hope you choose to do business with us here at =anhattan Motorcars.

Look forward to hearing from you,

Rupert
