**Subject:** Work scope

In aircraft now with Jay and Eileen reviewing "potential" work scope. We need contract so that we have an identified work scope and so that we can open a work order.

Lot of details that need to be discussed and finalized.

Reviewing seats at the moment. Will you be keeping powered lumbar switches in seats arms?

What are we doing about plating? We need to make a decision now- can't do it during second phase.

Your prompt reply is requested.

Best regards,

Eric
