i want to discuss something that is very important. =nbsp;when you you present mr epstein with a paper: punchlist or =ny other documents please make 100 percent sure you are intimately =amiliar with each entry and understand the issues as he will go through =hings in detail. mr epstein finds little time if the person =resenting has not fully understood what they give him. I =nderstand there were many errors on the list you recently provided with =ates, etc.. lets discuss later when we talk

please =et me know what time is best  
thank you
