=/blockquote>

=

Good day Rich, </=ont>

The projector status<=pan lang="en-us"> is as follows:

=

- \* The controls are responding again
- \* The vent snorkel was removed (stopping the heat from bl=wing back into the unit).
- \* The power connection is still an iss=e - Dave got it t= power up fully to show an image but it shuts down after a few minutes.

Dave states that i= has a lot of life in it still once we get the terminals clean of the corrosion.
