**Subject:** Potential Hanson Robotics project

David,

I was talking to Jeffrey Epstein today, and he is potentially interested in having you make a custom humanoid robot for him, similar to what you did with the Phil Dick robot, Bina48, Robot Einstein, etc.

Also, Jeffrey has an interest in AI (and a rather broad scientific knowledge) and I think it would be great for you two to meet sometime; you would have plenty to talk about. I'm sure the 3 of us will have a great discussion on AI/robotics at some point, but you may be able to intersect with him sooner if both your schedules agree.... He has various residences but a main one is in NYC...

Anyway I will leave it to you two to pursue the conversation further.

If the robot Epstein gets built, it will be my pleasure to eventually use OpenCog to increase its IQ even higher than that of the real Epstein ;-D ...

--Ben
