hi jeffrey,

..i didnt send you more pictures because nothing new happened lately, we started sealing the gold leafed lines.., besides we worked only a few days for the last two weeks.., they installed the scaffolding, and then everybody was off at the house..

anyway, the crown molding would look like in the pictures attached. in the third attached picture i gold leaf only the front side of the cubes and the vertical bars, and in the fourth attached picture you can see i gold leafed the entire cube(the sides too), and the vertical bars i gold leaf half inch around the corner so they look like solid bars.

what do you think? which one is better? the third picture or the fourth picture?

i think we might be done in one week with gold leafing..

happy new year!
