Jef=rey,

I ordered the autopilot computer for the Bell 430 thru Bell Helicopter,. part just completed bench certification and will arrive in Palm Bch on Friday,. The =1 AutoPilot computer installed in the heli is working fine=. and posses no issues to safety of flight.

=nbsp;

#1 Bell Helicopter outright exchange =\\$20,400.00 (with No Bill back of our old unit).

=0A

#2 CRS Supply \$23,475.00 exchange unit,. 5 day =ead time.

#3 Outright Purchase from Honeywell =72,100.00

#4 CRS Supply \$18,750.00 (possible Bi=l back if our old unit is B.E.R. "Beyond Economical Repair"=nbsp;.

Core Value of Auto pilot computer is \$85,0=0.00

Best scenario is Bell's AP =omputer for \$20,400 exchange with No Bill Back.

&=bsp;

is this approved?

thank you,

Larry
