Dear Jeffrey,

I wanted to reach out as I am so inspired by your philanthropy. My life took a very unexpected turn two years ago when my then 13-month-old son, Calvin, was diagnosed with a very rare and severe neurodevelopmental disease called Pitt Hopkins. I can't believe it's nearly been two years! We have come along way since then, but at the same time when I say two years, I guess I feel like we should be so much further. It has been a tough time for my family, but we are constantly buoyed by the kindness of friends and generous strangers devoted to making the world a more decent place - like you.

I'll spare you a long email and instead direct you to this video. I will tell you just about everything you need to know about Calvin, Pitt Hopkins and the Foundation we started in 4 quick minutes!

We have made huge strides in two years, but there is much more to be done -- and of course money needed to do it. I would be honored, grateful and indebted if you would be willing to allow us to apply to your foundation for a grant. I know you must be super busy, but I would love to talk if you ever have a minute.

Thank you, Jeffrey. The fact that you even read this means so very much.

hope to hear from you soon,

All my best,

President, Pitt Hopkins Research Foundation <=div>
