Subject: Great Danes option 1

I'm sending you two different option=s:

This a a boy and a girl Dane. They are a very unique Mearle color and 5 weeks old.

Dad is a HUGE 2=0 lbs black European Dane from Hungary. Mothers is giant as well. The=e guys will be stunning.

I'm learning about Great Danes. So apparently if you want them really big without the typical hi= problems, it has to be European stock. The American Danes are smaller and less robust.

You can have these hand delivered to Zo=ro in 3 weeks.

Note. These are not pets. They are top of the line breed stock from someone who really knows the race. The= have the perfect shape and temperament and they come with warranties and all the important certificates. So, they are not cheap. They are asking \$6K apiece but I can probably talk them down quite a bit in this economy.

<=iv>

The ears have not been cropped yet, so you can decide if y=u want the floppy or standing up
