Good morning,

I spoke with my supervisor & was told that conversations on such a matter is ok, however, if I was to actually procure a hard money loan from you. It could or may be interpreted in a awkward way if I had to process you for official CBP travel business and the full terms of the transaction is not known or understood by certain individuals.

"Make it so that even the capital you'll spend in the future, is working extremely hard for you today"
